

## Heat cutter HSG-4-VW

### Description:

The very powerful device for continuous operation, with fixed blade.

High-quality power electronics enable operation with continuously adjustable working temperature.

### Technical data:

|                   |                                                                                           |
|-------------------|-------------------------------------------------------------------------------------------|
| Supply voltage:   | 230 V - 50 Hz (110V - 60 Hz)                                                              |
| Power input:      | max. 500W                                                                                 |
| Operation time:   | Continuous operation                                                                      |
| Protection class: | I - Protective grounding                                                                  |
| Power supply:     | Supply cord 2 m, with European-type plug or US-type plug                                  |
| Weight:           | 14,0 kg                                                                                   |
| Dimension:        | 185 x 195 x 390 mm                                                                        |
| Other:            | Mains switch with signal lamp<br>Working temperature max. 600°C<br>Ready to cut in 6 sec. |

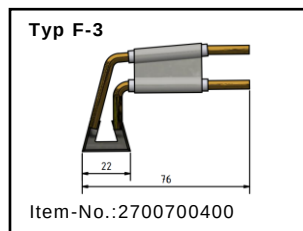

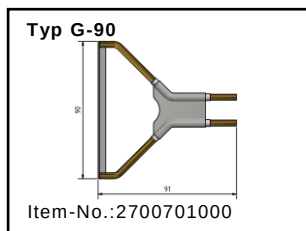

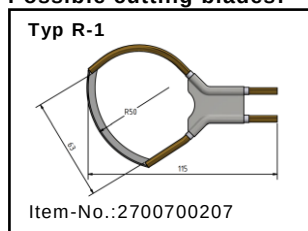

### Scope of delivery:

1x HSG-4-VW  
 1x Operating instructions with Declaration of Conformity  
 WITHOUT CUTTING BLADE

HSG-4-VW with cutting blade Typ R-1  
 (Cutting blade Typ R-1 not included in scope of delivery)

### Possible cutting blades:

### Option HSG-4-VW-mA (with suction)

### Description:

The HSG-4-VW can be ordered with an optional suction device. This is permanently installed on the unit and can be directly integrated into the existing extraction system.

### Technical data:

|                   |                                                                                           |
|-------------------|-------------------------------------------------------------------------------------------|
